DEL GAUDIO LORENZO 3°A

# La mia camera

Il mio percorso è iniziato da uno schizzo della pianta della mia camera

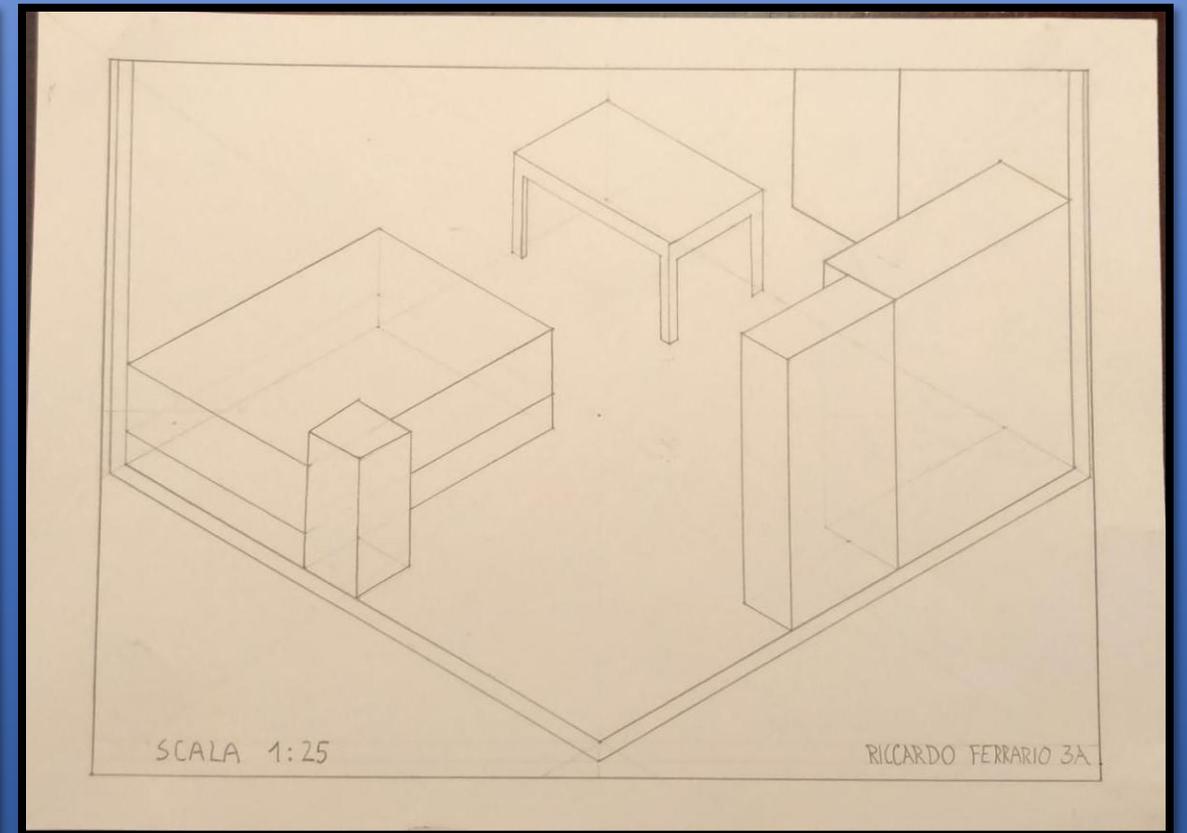

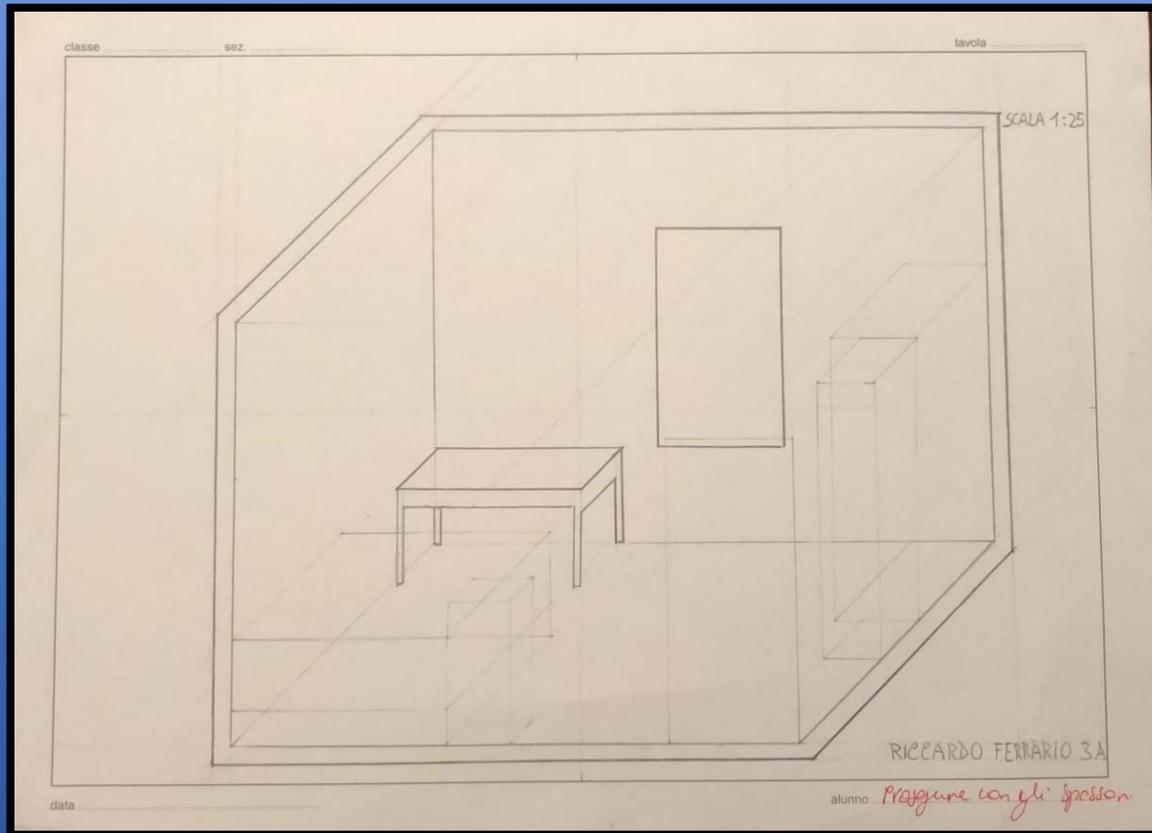

Riccardo Ferrario 3°A

Più tardi ho aggiunto l'impianto elettrico e ho realizzato la pianta con i mobili in scala

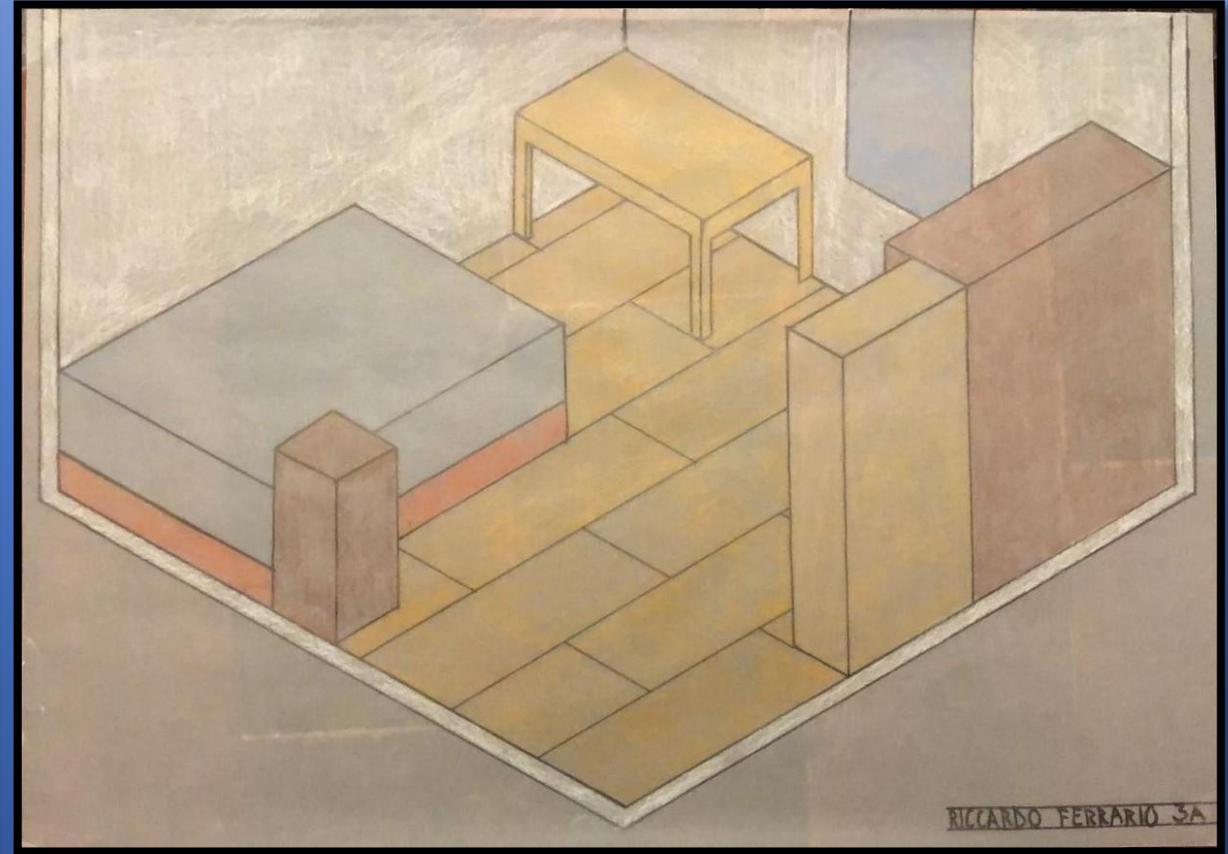

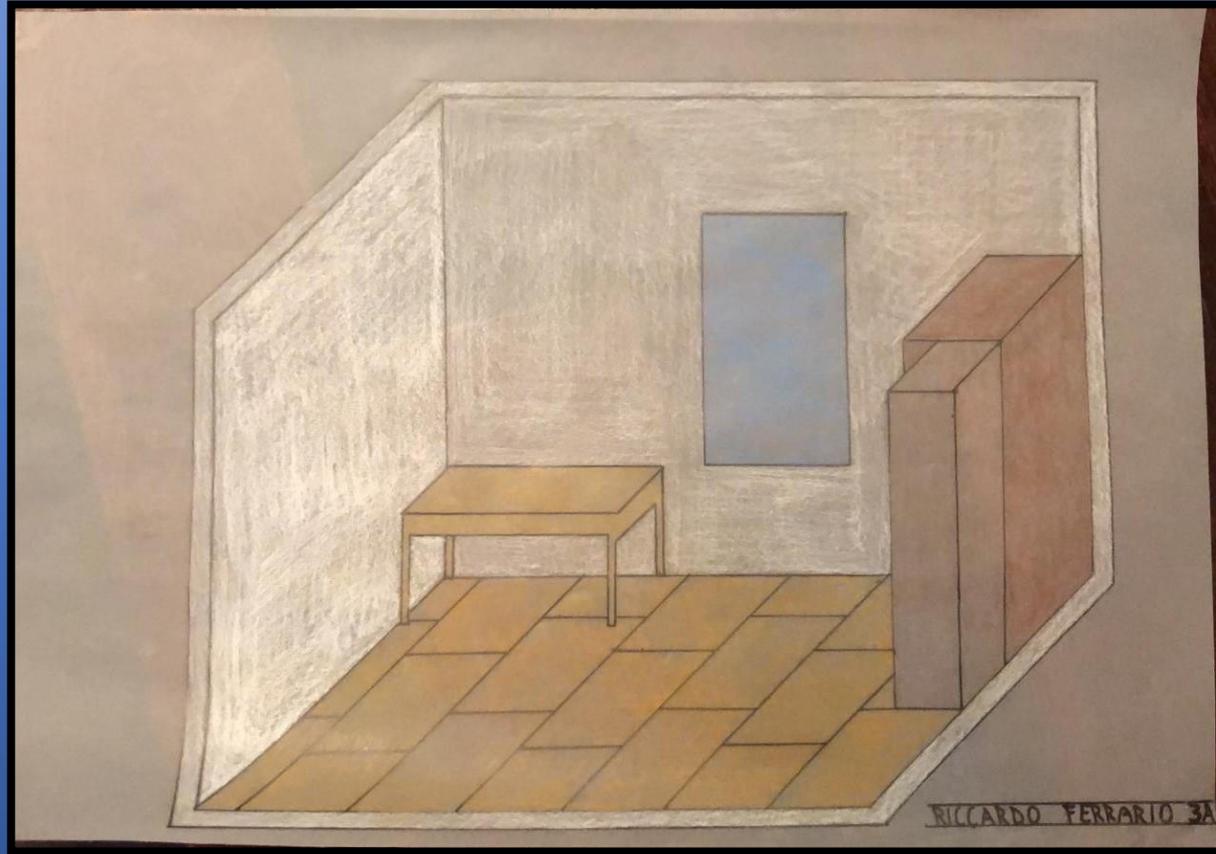

Riccardo Ferrario 3°A

Poi ho creato le due assonometrie, cavaliere e isometrica e le rispettive coloriture (tutto in scala)

Riccardo Ferrario 3°A

Poi ho creato le due assonometrie, cavaliere e isometrica e le rispettive coloriture (tutto in scala)

Riccardo Ferrario 3°A

# LA MIA CAMERA

LORENZO GARIBOLDI

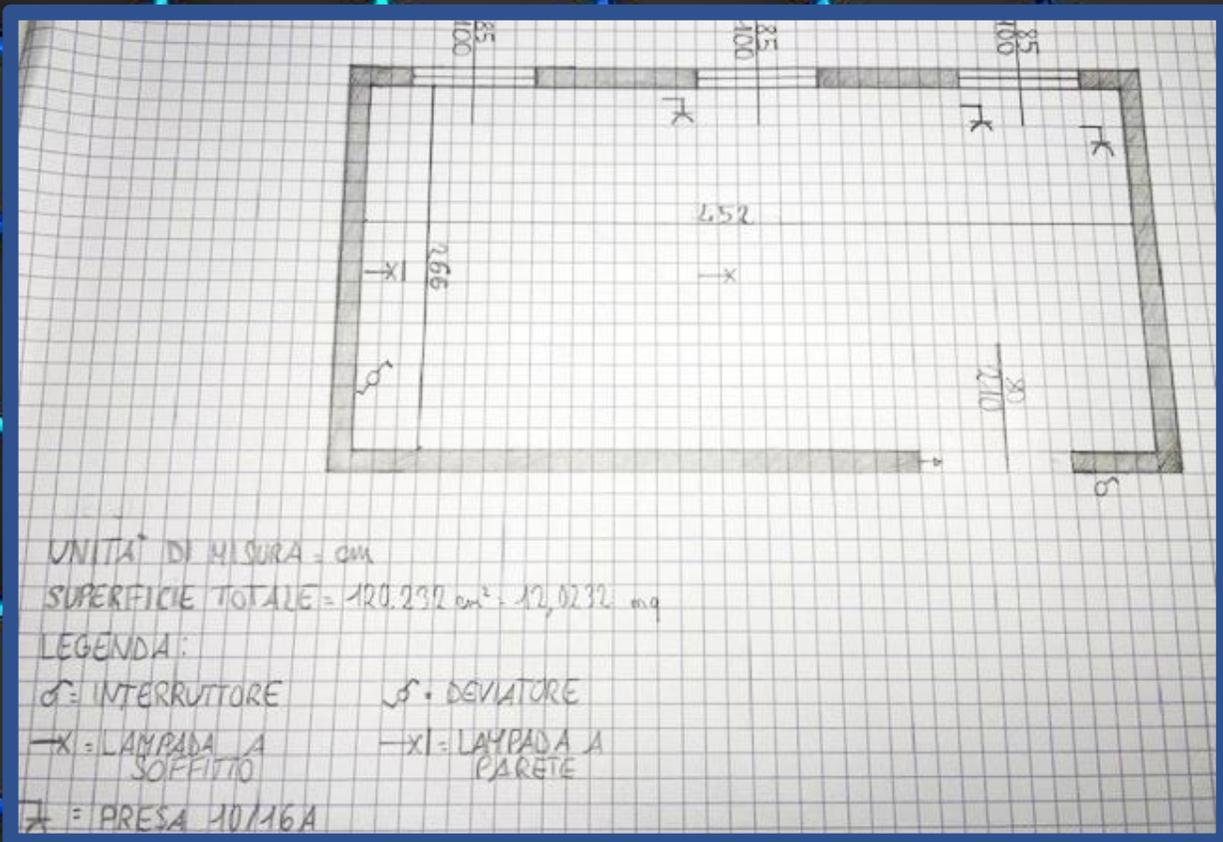

# L'INIZIO:

**Qualche mese fa abbiamo iniziato un progetto sulla nostra stanza, in cui ognuno in modo più tecnico all'inizio, in modo più personale alla fine ha fatto un suo percorso evolvendo la sua stanza.**

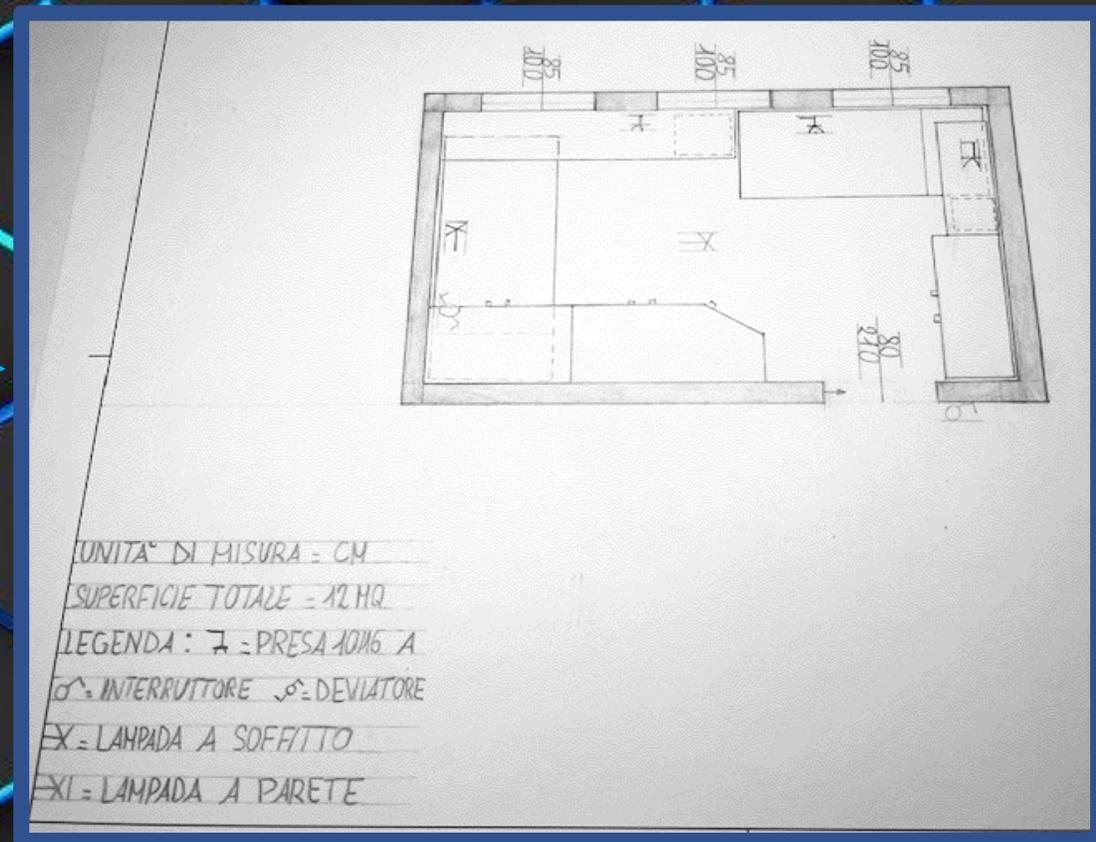

**Inizialmente ho preso le misure per realizzare un rilievo della mia camera su un foglio a quadretti specificando attraverso l'uso di una legenda i simboli coinvolti nel rilievo, chiamato planimetria. Tutto è andato di pari passo con un lavoro più teorico svolto in classe riguardante i sistemi elettrici, introdotti nella planimetria.**

**Poi ho fatto lo stesso lavoro su un foglio da disegno realizzando la planimetria definitiva della mia camera**

# LE PIANTINE:

RILIEVO PLANIMETRIA

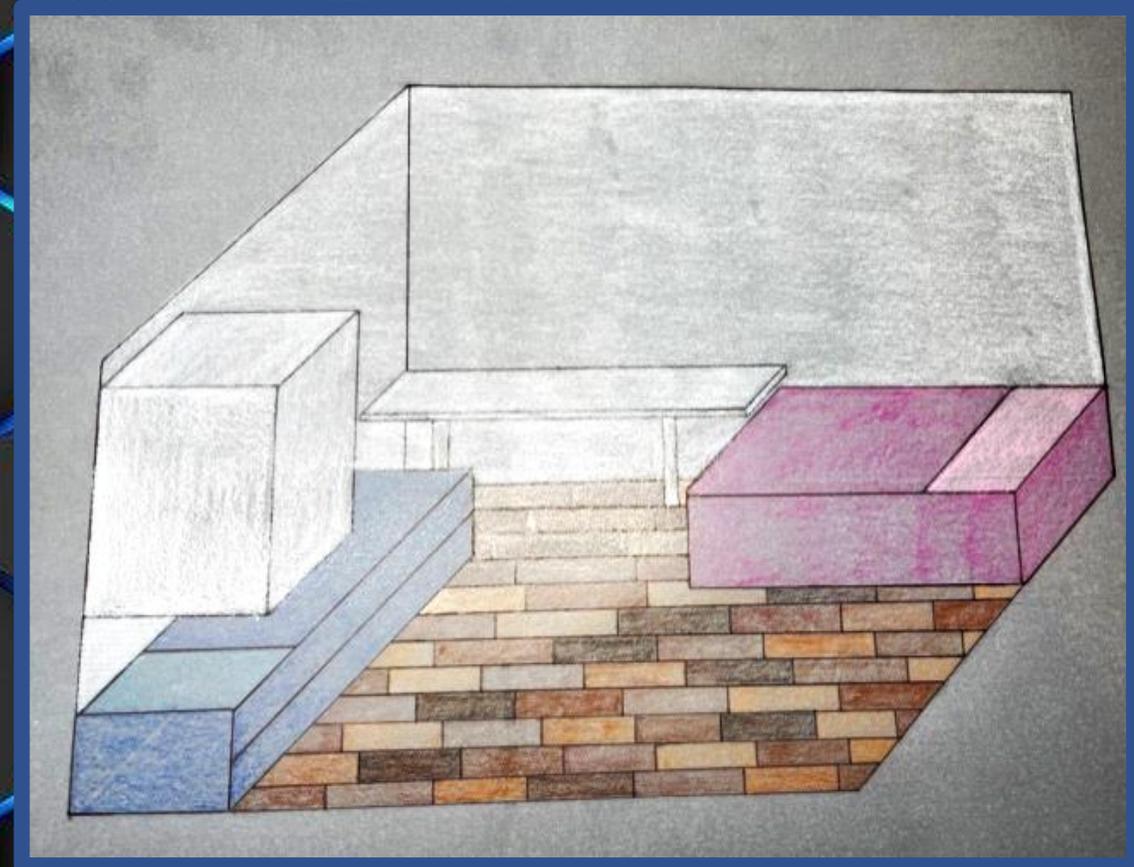

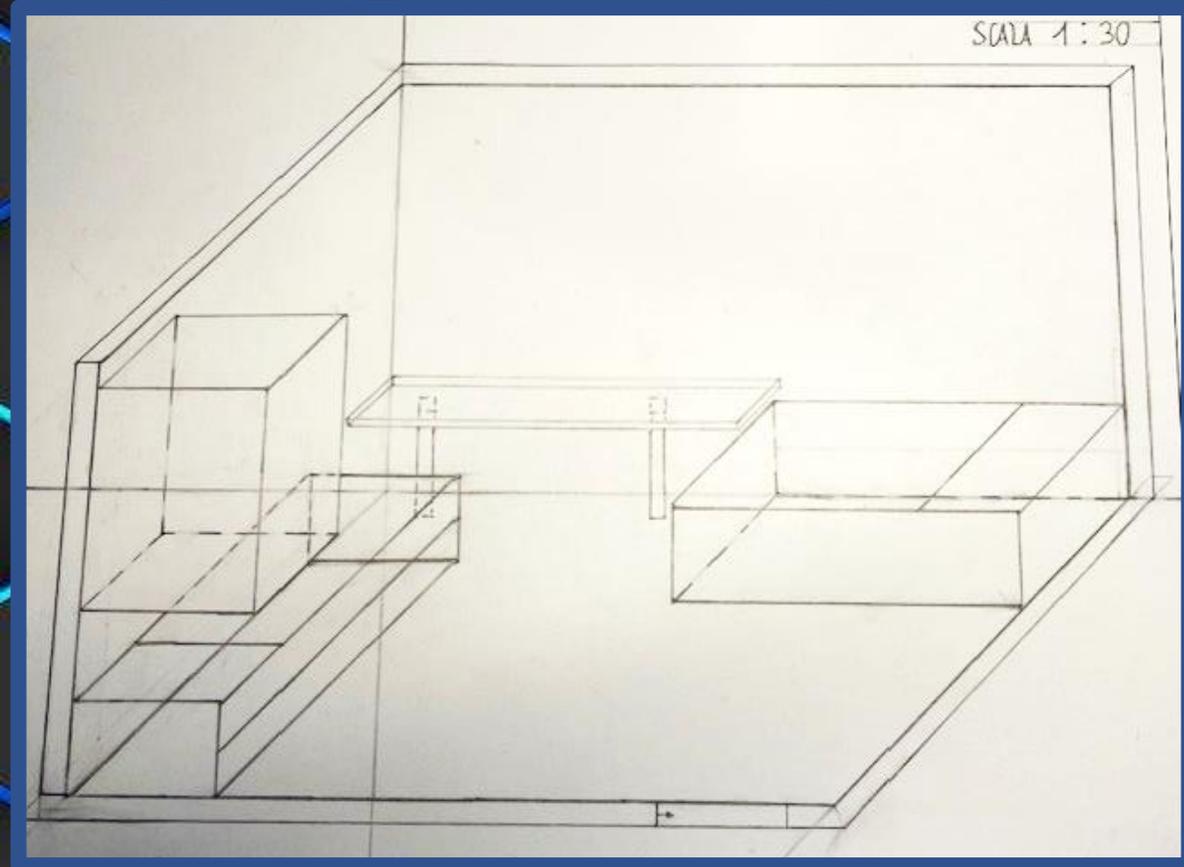

PLANIMETRIA DEFINITIVA

# LE ASSONOMETRIE:

**In seguito, mettendo a punto la tecnica delle assonometrie da poco imparate, abbiamo realizzato l'assonometria prima cavaliere e poi isometrica della nostra camera su un foglio da disegno. Facendo per ognuna la rispettiva lucidatura, ovvero ricalcando con un pennarellino nero le linee marcate, cioè visibili e colorando ogni singolo particolare.**

Marco Girlanda 3°A

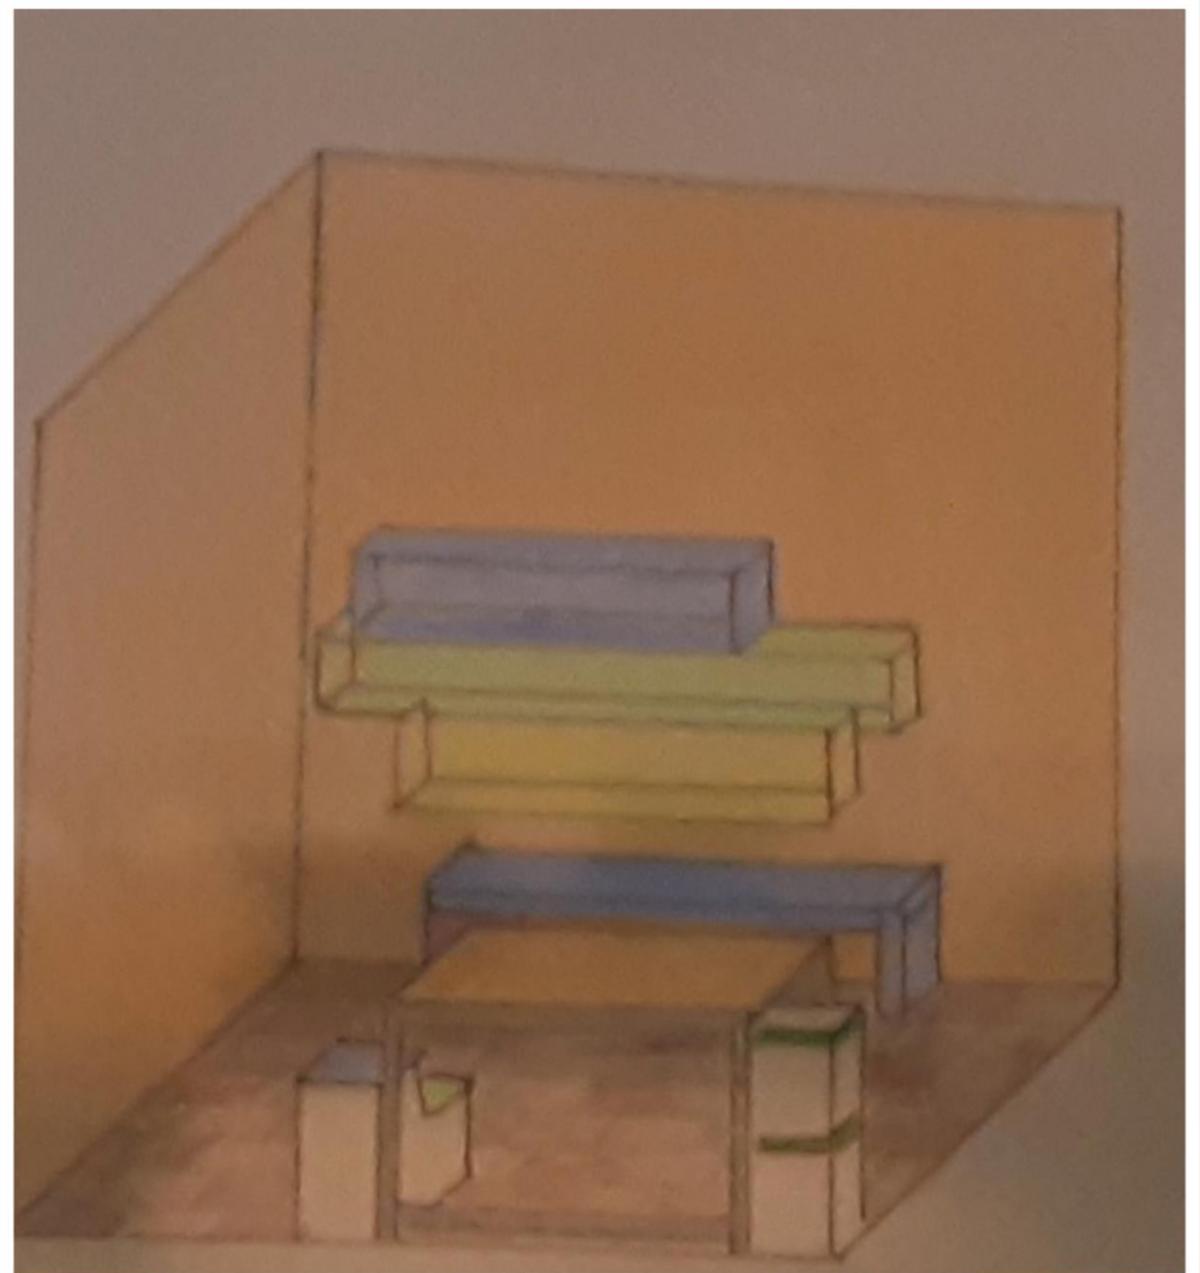

# L'assonometria cavaliere e isometrica

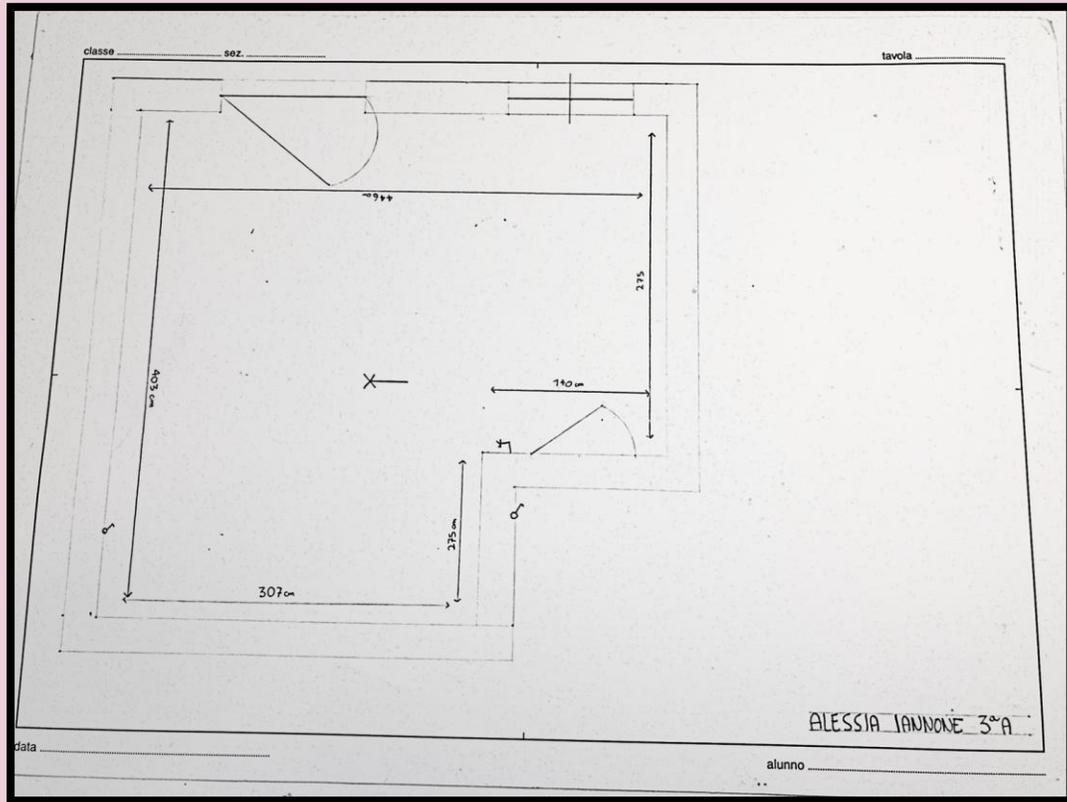

Queste tavole si possono considerare come un traguardo molto importante da superare non solo perché da considerarsi una vera conclusione del lavoro, ma soprattutto per il percorso che ci ha portato a questo punto.

Piantina delle  
pareti e sistema  
elettrico

# Piantina completa.

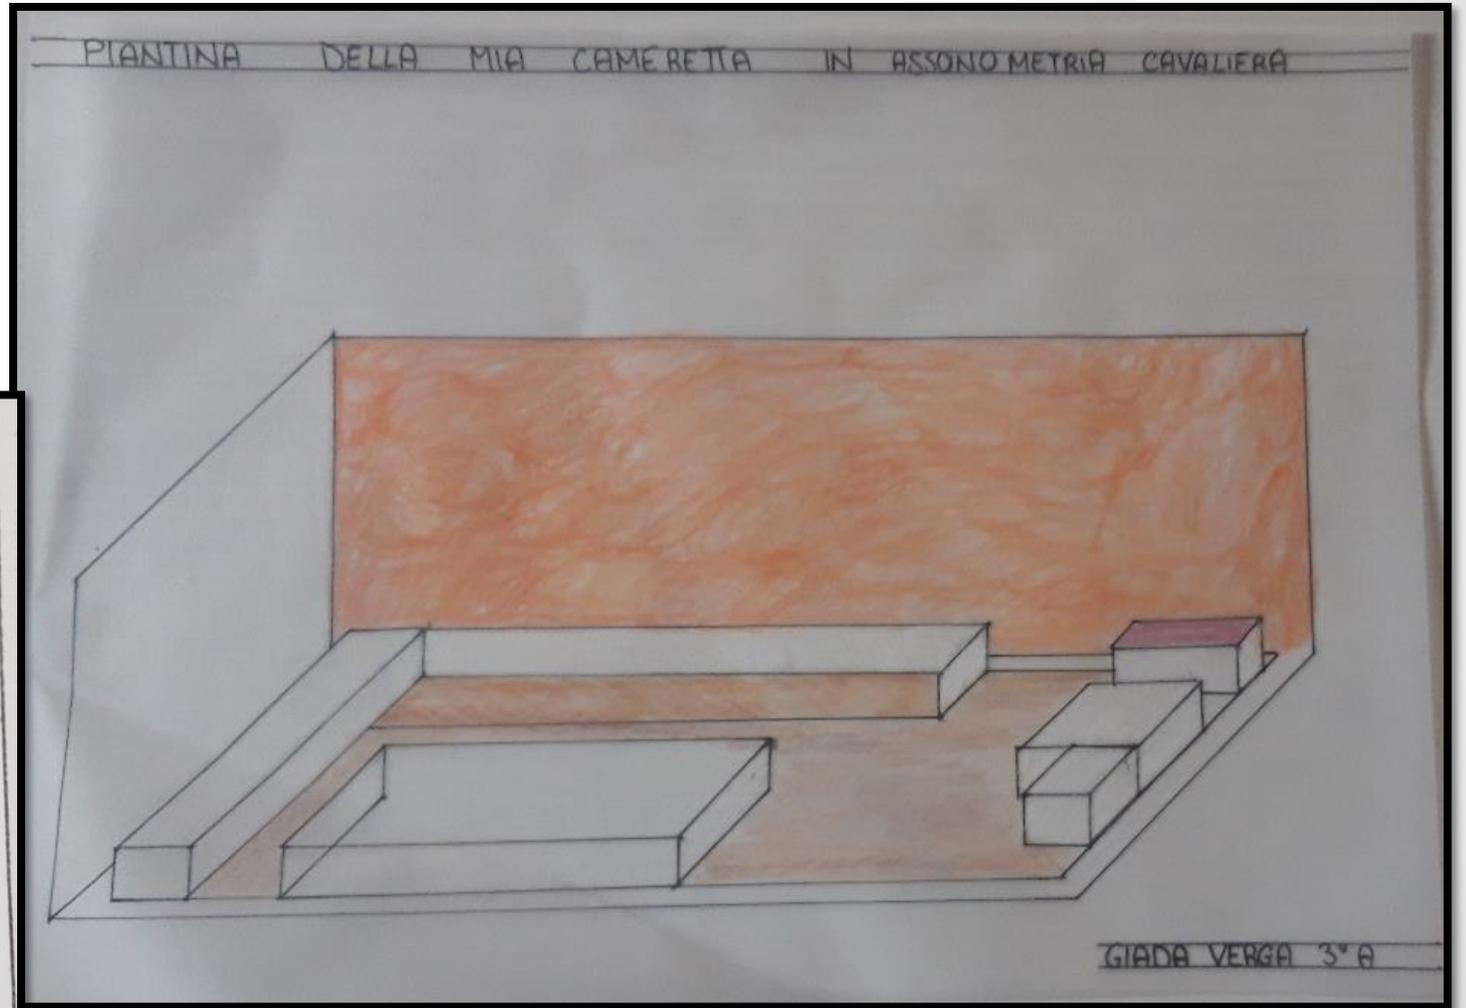

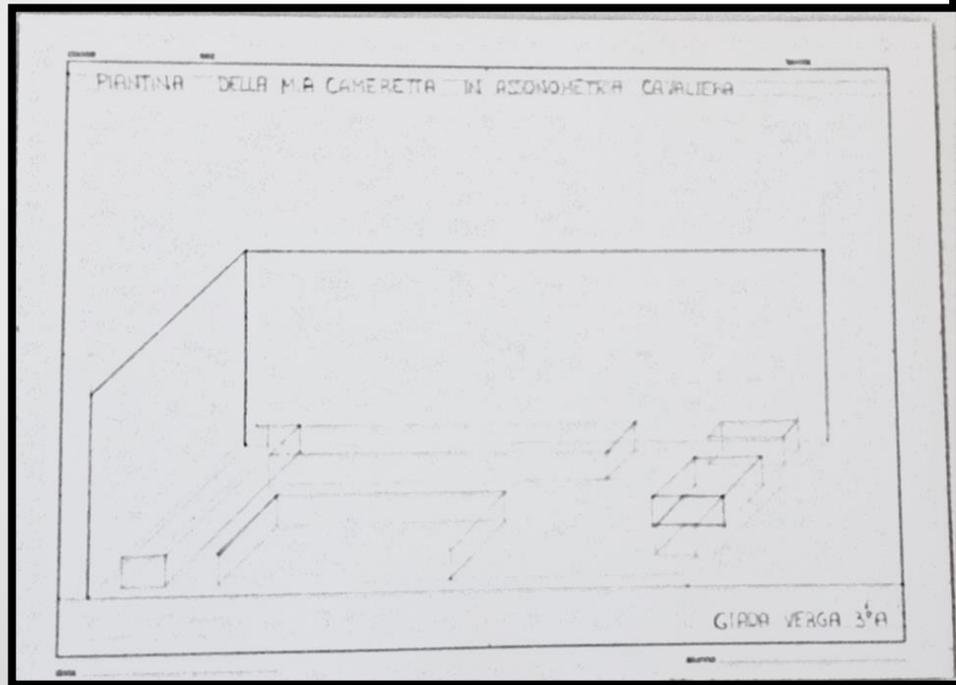

Questa è la piantina che presenta il sistema elettrico i mobili. La piantina è in scala 2cm nel foglio equivalgono a 50cm nella realtà.

Giada Verga 3°A

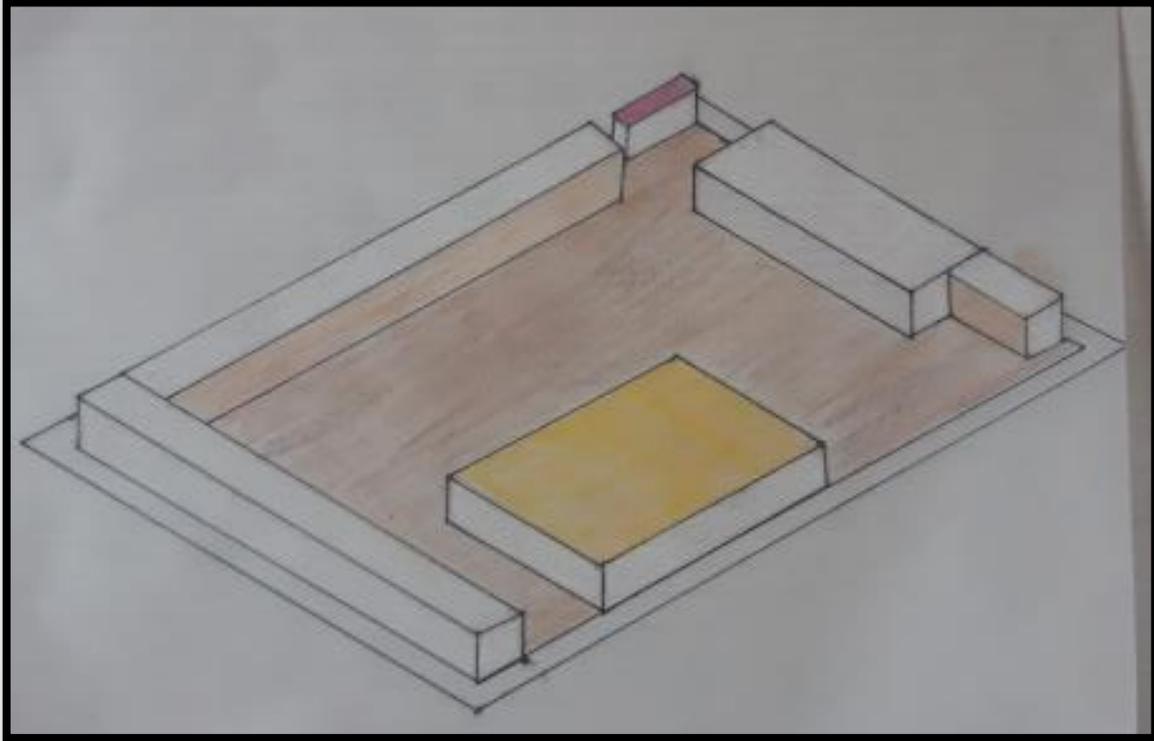

# Assonometria cavaliera

La camera nella prima immagine è disegnata su un foglio mentre nella seconda è stata colorata e disegnata su un foglio lucido.

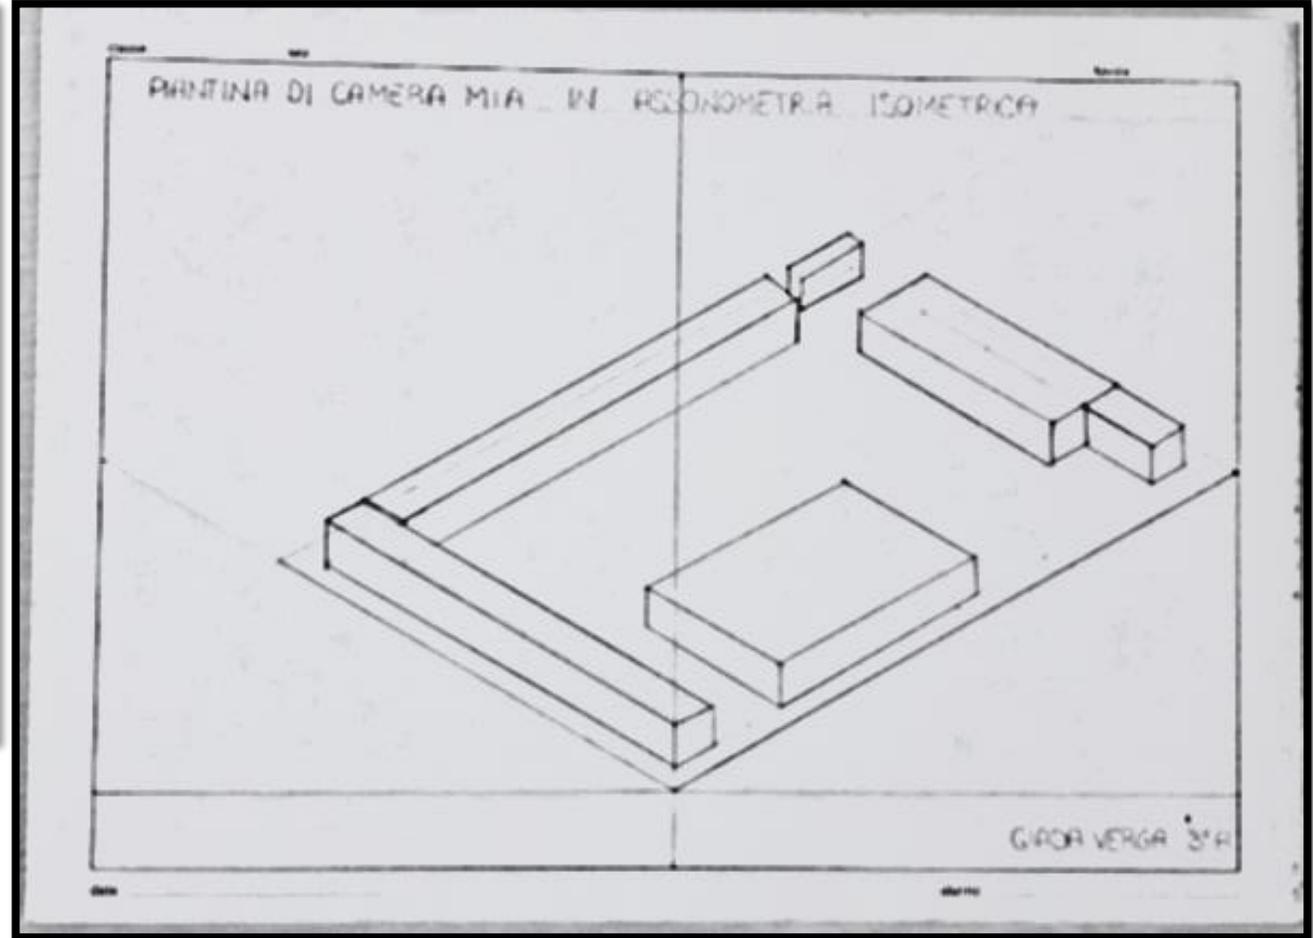

Giada Verga 3°A

# Assonometria isometria

In questa immagine invece possiamo vedere la camera disegnata prima su un foglio e successivamente su un foglio lucido e colorato.
